

## TLI21921 Certificate II in Track Protection

Release Status: Current  
Release 1 - 22/11/2021

This is a general qualification for a person engaged in basic operations in the rail infrastructure environment undertaking track protection activities.

This includes a range of tasks involving known routines and procedures, and taking some responsibility for the quality of work outcomes.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

### Training Solutions

The Instruction Company offers tailored training solutions using a range of methods including face-to-face delivery, self-paced activities, research, simulations, workplace practical application of skills and supervised learning activities.

This ensures that both the needs of the employer and student are being met and students develop the job skills required.

The training is conducted by a qualified, industry current, trainer and assessor to ensure the learning is relevant and up to date.

### The Instruction Company

The Instruction Company (TIC) is a Registered Training Organisation (RTO) who has been providing tailored training and assessment solutions in the rail industry since 2000.

### Enrolment Requirements

There are no formal entry requirements for this qualification, although applicants will need to undertake an LLN assessment.

### Duration

This qualification is typically delivered over a minimum duration of 6 months

### Practical Workplace Component

This qualification requires students to undertake practical activities in a workplace setting. Students will be provided a logbook with details about the activities to be undertaken in the workplace for each unit of competency.
