

TLI37122 Certificate III in Rail Infrastructure (Track Maintenance)

Release Status: Current
Release 1 – 26/07/2022

This is a general qualification for a person engaged in the rail infrastructure environment who performs tasks involving a broad range of skilled applications in a wide variety of contexts. It may involve application of some discretion and judgement in selecting equipment, services or contingency measures. It may also include responsibility for coordinating the work of others.

Training Solutions

The Instruction Company offers tailored training solutions using a range of methods including face-to-face delivery, self-paced activities, research, simulations, workplace practical application of skills and supervised learning activities.

This ensures that both the needs of the employer and student are being met and students develop the job skills required.

The training is conducted by a qualified, industry current, trainer and assessor to ensure the learning is relevant and up to date.

The Instruction Company

The Instruction Company (TIC) is a Registered Training Organisation (RTO) who has been providing tailored training and assessment solutions in the rail industry since 2000.

Enrolment Requirements

The entry requirement for this qualification is Certificate II in Rail Infrastructure or relevant industry experience gained by working in the rail infrastructure environment.

Additionally, you will be required to undertake an LLN assessment.

Duration

This qualification is typically delivered over a minimum duration of 6 months.

Practical Workplace Component

practical activities in a workplace setting. Students will be provided a logbook with details about the activities to be undertaken in the workplace for each unit of competency.
